**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I believe in the American way, which is to say I believe in a competitive free market. Without smaller companies like sonic to supply internet and grow as a service provider, we would essentially be saying that we dont believe in competition, and only monopolies should exist. That is not what I believe, and that is not what I will vote for.

This companies offers much better service than my local att or Comcast internet, much lower prices, and I receive faster and more reliable internet access (based on my previous 8 years with Comcast, and 5 year with ATT before that.

My local broadband provider is essential to our local competition and must be allowed to continue operating on a level field.
